The way of concluding the contracts between students and economic agents, as well as the conditions for granting the scholarships related to the study contracts and the study loans granted by banks is settled between the two parties – students and economic agents or banks. The liability for fulfilling the contractual conditions rests with every student who has concluded such a contract.

**Art. 5** The funds for the students' scholarships and social protection are allocated by MEN, through the institutional contract, depending on the number of students attending full-time education, without tuition fee (Law 1/2011, art. 223, par. 9). The University supplements the scholarship fund through its own extra-budgetary revenues (Law 1/2011, art. 223, par. 11). These additional amounts are annually approved by the University Senate, at the proposal of the Executive Board. The additional amounts from the University's own extra-budgetary revenues cover at least the amount of scholarships granted from the University's own revenues regulated by art. 4, letter E.

**Art. 6** The funds for granting scholarships from the state budget are distributed as follows:

- at University level, to the scholarships for undergraduate and graduate study degrees in the country and abroad, "We develop the University" scholarships, to the *STUDENT – STAR* scholarships and the special scholarships for the student members in residence-hall committees;
- at faculty level, to the scholarships for stimulating the academic performance, other special scholarships and social scholarships.

The University Scholarship Commission allocates the scholarship fund to the faculties, in proportion to the number of students at full-time education. The amounts of money remaining ungranted as scholarships at the level of one faculty shall be redistributed by the University Scholarship Commission to other faculties.

The funds allocated to the faculties shall be distributed according to study programmes and study years, in proportion to the number of students; the liability for distributing the funds according to study programmes and study years rests with the Faculty Scholarship Commission.

**Art. 7** The scholarship fund is distributed as follows:

- min. 1% - max. 1.5% to *STUDENT - STAR* scholarships and the special scholarships for the student members in Residence-hall Committees;
- min. 8.5% - max. 9% to the scholarships for undergraduate and graduate study degrees in the country and abroad;
- 60% to the scholarships for stimulating the academic performance and other special scholarships. If the fund is not fully used, it is redistributed to the social scholarships granted by the Faculty Scholarship Commission;
- 30% to the social scholarships. If the social scholarship fund is not fully used by one or several faculties, it is redistributed by the University Scholarship Commission to the other faculties for granting social scholarships. The amounts remaining after covering all eligible applications are redistributed by the University Scholarship Commission for granting performance or merit scholarships.

\*the amount of money remaining unspent in the scholarship category for undergraduate and postgraduate studies in the country and abroad can be allocated to other scholarship categories, excepting those for academic performance.

The University decides on the source of funding for *We develop the University* scholarships, respectively its own revenues or funds from the state budget, as the case may be.

**Art. 8** The amount of the scholarships is annually approved by the University Senate, at the proposal of the faculties and with the endorsement of the Executive Board. The amount of the performance scholarship is higher than the amount of the merit scholarship. The amount of the merit scholarship is higher than the amount of the social scholarship. The minimal amount of the social scholarship is annually proposed by the National Council for Higher Education Funding (CNFIS), taking into account the fact that they must cover the minimal board and lodging expenses (Law 1/2011, Art. 223, par.10). In the case of Transilvania University, this minimal amount refers to the monthly board and lodging expenses for a budgeted student. The quantum of *TRANSILVANIA* excellence scholarship is at least twice higher than the monthly value of the performance scholarship. The quantum of the *STUDENT - CAMPUS* internship scholarships is established, on a case-to-case basis, by the Executive Board.

**Art. 9** A student may not receive simultaneously two types of scholarships of the same category, but s/he has the right to opt for the one with a higher value or granted for a longer period of time. By exception, the students who benefit from social scholarship may receive any other type of scholarship stipulated in these Regulations. The students who have the right to receive both performance scholarship and merit scholarship must opt for one thereof and may choose the one with a higher value or which is granted for a longer period of time. The scholarships granted from the University's own funds, such as *TRANSILVANIA* excellence scholarship, *STUDENT - CAMPUS* internship scholarship and Prize of the Year –Erasmus+ Mobility scholarship, may be cumulated with the other categories of scholarships.

**Art. 10** The scholarships, regardless of their category, shall be granted to the students also during the periods when they are abroad for study, based on the agreements concluded by the University with its partner universities, with or without material support from Transilvania University of Braşov. The scholarship granting is approved, in this case, by the Faculty Scholarship Commission. For the student beneficiaries of mobility exchanges within Erasmus+ programme, the scholarship granting procedure abides by the *Regulations for the recognition of students' Erasmus+ studies and practical stages*.

**Art. 11** The scholarships, regardless of their category, are granted to students throughout the academic year. For the students in the last study year (bachelor's and master's) the scholarships (regardless of their category) are granted until the end of the first session scheduled for the completion of the studies.

**Art. 12** The scholarship shall be paid by bank transfer monthly, on the date set by Transilvania University of Braşov. The exceptions will be nominally approved by the University's Executive Board.

**Art. 13** If the student gives up his/her studies and withdraws for one semester of the academic year, the payment of the scholarship shall cease as of the date of registration of the withdrawal application at the faculty secretariat.

**Art. 14.** The students may avail themselves of any type of scholarship from the state budget funds for a single bachelor's programme, for a single master's programme, except for the scholarships for extra- and post-graduate study degrees. In order to avoid granting scholarships for attendance of two study programmes, the scholarship shall be allocated by the faculty (study programme) in the higher-education institution which the student opts for, the one where the student has submitted the baccalaureate diploma in the original, based on application. The application shall be accompanied by a certificate issued by the other faculty / higher education institution where the student is enrolled, attesting that s/he is not a scholarship grantee at that faculty.

**Art. 15** The graduates holding a bachelor's degree or a graduation diploma, respectively a master's degree diploma, who attend a new study programme, or the students who continue their studies, may benefit from scholarship by submitting an application unless they benefitted from scholarship in the first programme and provided that the baccalaureate diploma and the bachelor's (graduation) diploma are at the faculty in the original. The application shall be accompanied by a certificate issued by the previously graduated faculty / institution of higher education, which attests that the student was not a scholarship grantee.

**Art. 16** The students who are professional athletes, the student members of artistic bands, as well as the students who benefitted from specialization scholarships abroad and who were approved the extension of the session may benefit from scholarships if, on the 30<sup>th</sup> of October in the current academic year, they fulfil the specific criteria established for the granting of scholarships. Furthermore, the students who fall within the above-mentioned categories and who received approval to take their exams beyond the winter session, may avail themselves of scholarships during the second semester of the academic year, if they fulfil the specific criteria for the granting thereof on the 30<sup>th</sup> of March in the current academic year. The scholarships are granted starting from the month following the date of passing the last scheduled exam.

**Art. 17** The students under extension of the tuition time may not receive scholarship in the repeated year. The scholarship-receiving students who, for medical reasons, had their tuition extended (medical repeat), having been unable to attend the courses for at least 60 days in the previous academic year, may receive scholarship based on the results obtained in the study year promoted before the one they repeat for medical reasons and, respectively, based on the net income per family member, as regards the social-assistance scholarship, but no longer than the normal tuition duration.

**Art. 18** The students who benefitted from medical interruption of the studies, are entitled to scholarship in the year they resume their activity if they were scholarship grantees at the time of interrupting their studies. The credited students are entitled to scholarship in the semester subsequent to the promotion of the credited exams, programmed according to the curriculum, provided that the provisions of these Regulations are fulfilled.

**Art. 19** The credits, respectively the grades obtained in the elective courses are not taken into account when calculating the credit points, respectively the average for granting the scholarship, but they may be used for ranking tied numbers of value points.

**Art. 20** The methodology for granting academic performance scholarships, special scholarships, scholarships for undergraduate and graduate study degrees in the country and abroad, social scholarships and scholarships granted from the University's own revenues is stipulated in Appendix 1.

**Art. 21** The documents on the basis of which the scholarships were granted are deposited and kept in the University Archives for a minimum period of five years. The University Scholarship Commission and the University Archive Officer are responsible for this.

**Art. 22** The scholarships may be temporarily or permanently withdrawn by the Faculty Councils, for serious deviations from the university discipline norms, based on the criteria established by every faculty.

**Art. 23** The students may contest in writing the decision not to be granted the scholarship or to have it withdrawn, within 2 working days from its display on the notice board and the faculty website. The appeals are solved by the Faculty Scholarship Commission, within 3 working days from their submission. The students dissatisfied with the settlement of the appeal by the Faculty Scholarship Commission may solicit reconsideration of their request by the University Scholarship Commission, by registering a reasoned solicitation in this regard, within 3 days from the display of the results at the faculty. The faculty shall immediately transmit to the University Scholarship Commission the solicitation and file containing the contestation and the documents submitted by the student. The University Scholarship Commission shall solve the application within 5 days from its registration and shall communicate the resolution to the faculty.

**Art. 24** Transilvania University of Braşov may give full or partial study grants to the tuition fee-paying students, within the maximal amount of the tuition fee. These grants are given in the order of the students' value hierarchization. The grants are given annually for every study programme and they represent maximum 5% of the grants financed from the state budget for that study programme and study year. The faculty councils make the grant proposals within 15 working days from the beginning of the academic year. The proposals of the faculties are centralised at the Vice-Rectorate for Students and Liaison with the Economic and Socio-cultural Environment and are submitted to the Executive Board for analysis and approval.

**Art. 25** As a form of material support, Transilvania University of Braşov may grant the students accommodated in residence halls and who have a difficult economic family situation (the monthly income per family member lower than a value set at the beginning of every academic year by the Council for Student Social Problems) a discount/exemption from the payment of the residence-hall fee. The applications, endorsed by the faculty secretariat and supported by documentary evidence, shall be submitted to the Vice-Rectorate for Students and Liaison with the Economic and Socio-cultural Environment, within maximum 4 weeks from the beginning date of the academic year. The applications submitted after this deadline, regardless of the social situation concerned, shall not be admitted. The student residence-hall committees and the Administration of Residence Halls shall analyse each application separately and submit these cases for discussion to the Council for Student Social Problems. The final list of beneficiaries shall be approved by the Executive Board. Transilvania University of Braşov may grant, free of charge, monthly accommodation and one meal per day, at the student canteens, within an amount up to 15 lei/day. The Council for Student Social Problems (Co-STUDENT) will analyse every case separately and will decide in relation to the students who need such support. In this regard, the Co-STUDENT proposal will be submitted to the Executive Board and approved by the University Senate.

**Art. 27** The social aid granted by Transilvania University of Braşov for accommodation and/or meal to the students entitled to receive them (discounts/exemptions from board and lodging fees) may be conditioned by the University management on the concerned students' involvement in various administrative activities of the campus, according to the needs. The activities will target the surveillance of the utility consumption, operation of facilities, cleaning (including the cleaning of green spaces), the organization of university events and conferences, the Companies' Podium, activities specific to the residence halls and canteens, etc. The students' organization and coordination in this respect will be achieved by the Vice-Rectorate for Students and Liaison with the Economic and Socio-cultural Environment together with the General Administrative Department.
