Potential climate change mediated recovery of autochthonous broadleaf species to the detriment of allochthonous planted conifers	RU-PD	Ana-Maria HERES	Acceseaza pagina web	2018-2020
Novel multifunctional composite thin films with simultaneous IR-shielding, self-cleaning and anti-reflection properties for PV glazing	RU-PD	Maria COVEI	Acceseaza pagina web	2018-2020
Novel "all wastes" composites PV based for indoor or outdoor applications	RU-PD	Mihaela Codruta COSNITA	Acceseaza pagina web	2018-2020
Reference in discourse: Processing pronouns and demonstratives	RU-TE	Sofiana LINDEMANN	Acceseaza pagina web	2018-2020
Real-time functional evaluation of patients with acute coronary syndrome using routine angiography	RU-PD	Lucian ITU	Acceseaza pagina web	2018-2020
New diagnostic and treatment methodologies: current challenges and technological solutions based on nanomaterials and biomaterials - Acronym: SANOMAT	PCCDI	Monica FLORESCU	Acceseaza pagina web	2018-2021
Microfluidic platform for circulating tumour cells (CTCs) concentrated through dielectrophoresis-magnetoforesis and analysed via broadband dielectric spectroscopy and electrochemical impedance.	PCCDI	Marius VOLMER	Acceseaza pagina web	2018-2021
Empirical modelling and experimental development of emerging technologies tools for online social networks	PCCDI	Gheorghe EPURAN	Acceseaza pagina web	2018-2021
New advanced nanocomposites. Technological developments and applications	PCCDI	Doru URSUTIU	Acceseaza pagina web	2018-2021
Nanostructured carbon materials for advanced industrial applications	PCCDI	Anca DUTA	Acceseaza pagina	2018-2021
